Sir Charles Waldstein

I was very interested
to see your portrait by Tazlo's some
time ago. He is to my mind the best
psychologist of all the modern portrait
painters - I have still some of my
works left in London & I should very
much like to have him see them -

As I do not know him personally
it came to me that perhaps you
could interest him to come & see what
things I have - It would be very kind
of you if you would - The struggle is
hard - & one needs people who know
their business - to get any footing
at all in this slippery world -

Yours Very Sincerely

David Estlin
