My dear Sir,

Miss Carnegie desires
me to write you in regard
to the painting of the four
portraits she spoke to you
and to an alleged East India
the East Indies. She has
had a letter from the East
in which he informs her
you will undertake the
four pictures the size of
the one she ~~see~~ saw of
the East for 400 pounds
each. Miss Carnegie lives at

Cumberland Island -
Georgia - about eight hundred
miles south of New York
and thirty hours by train from
New York. The travel that
would suit Mr Carnegie to
have the work done would
be in months of January
and February - I will be
in London and would like

to have the pleasure of
talking the matter over
with you anytime before
we sail for home which
is on Sept. 4th - you can
find me at the hotel nearly
always about one o'clock
but I think perhaps you had

Will drop me a line
making an appointment,
and Carnegie says to tell
you she can promise you
some good deer- and
turkey and duck shooting
if you care for that sort
of thing. I was with
Miss Carnegie the other
morning and had the
pleasure of meeting you.
Hoping to hear from you
I am
Yours truly

Oliver Richardson
