My dear Sir

I have looked in to see Ann but find her out - your maid is making me some tea -

I saw Sir Charles yesterday & had a long chat with him - He still feels that it is better not to force the pace in regard to the hearing of Phil's case - If it is heard before peace is signed & goes against him, P. would then be an alien and would be vigorously interned, if not deported & for this reason alone as well as for others it is perhaps best that the case should not be heard till peace is signed -

He will try to arrange for Sir J. S. to call in some day to see P. on his way motoring to London from Oxford, where he has a house -

Shutland notes of the evidence at the
investigation will be taken -

These are all the points you asked
me to inquire upon -

I hear today from Ben that the
decision in Schiedes case was given
two days ago - It is not denaturalized
& the same decision has been given in the
case of his manager - Mitchehausen
or some such name -

This is all to the good -

Just I am glad to have seen you again
but I have to get off home tomorrow -

My affectionate brother
Howard
