

WATERLOO,
GERHARD'S CROSS.
TEXAS.

September 14th 1924

Dear Míche Láozló

Thank you very much
for your very kind letter and
for the trouble you have taken
Even if nothing should come of
it I am sure it cheers my
boy to feel that some one
is trying to do him a good
turn. He has had so many

SECRET

CONFIDENTIAL

rebuffs and disappointments during the last year, that I am sure he was feeling that the whole world was against him. I am glad to say he has been brighter and more like his old self the last few days. He is now making enquiry about the Flying Force. He hears they are trying to raise the standard and are wanting

men with a university education
and he thinks he may stand on
chance with his army record and
engineering training. If it means
saying we don't like the idea
but he is now of an age that
we cannot say you must or you
must not

I practically finished the copy
of the Maffey picture last Monday
I am going up again on Tuesday
to oil it out and see what it

looks like and if necessary work
on it. So far it is all done in
the one painting. I hope on Tuesday
to find the frame there.

We came down here on Wednesday
and have been very busy since
putting our things in order.

Henry looked in to see me on
Monday and I had lunch with
him. He is a very interesting boy.

I am glad to hear of you taking
long walks and playing golf.

After that we shall look for great work
done in Paris. Kindest regards and again
many thanks yours sincerely Frederick Couller
