

25th October, 1926.

My dear Mr. Palmer,

I am just back from the country, and hasten to thank you for your kind letter and for the interest and goodwill you have shown towards our son, Stephen.

It was most good of you to send me so soon the address of Mr. Ackermann with whom I have to arrange about the coaching of Stephen, and no doubt your kind introduction to Mr. Ackermann will be a great help to Stephen. I am awaiting daily to hear from him as to when we can expect him home and I am sure that about the first days of next month he will be able to begin his work, but in any case, I will communicate with you again as soon as I hear from Stephen.

I much enjoyed my lunch with you and was very interested in your splendid Institute of Engineers, and I look forward, with pride to the time when my picture of you will be added to that long chain of distinguished Presidents of the Institute.

With kindest regards to Mrs. Palmer and yourself,

Always yours sincerely,

25th October, 1926.

My dear Mr. Palmer,

I am just back from the country and hasten to thank
you for your kind letter
