Dear Mr. Laszlo,

Lie John tells me that you might like to take an interest in the Dials Cotton Company that as he has no shares left he told you I might manage to let you have some. This of course I will do if you wish. I think that you will not regret it & given ordinary good fortune the shares ought to be worth twice their present price after next season's crop has been harvested. The names of the people who are connected with it should give anybody great confidence. If you want any shares let me know & I'll do the best I possibly can. It was so kind of you showing us your pictures yesterday & a very great treat to us all. Many many thanks to you & Mr. de Laszlo.
Yours very sincerely
Wm. H. B. Dampier
