H E A R T O F E M P I R E .

Showing how London was born 2000 years ago, with the
landing of the Romans, where the Mother of all Parliaments
now stands.

How Great Britain evolved, with pretty dances and
scenes in Hyde Park, such as a Maypole dance, Duelling,
processions to Tyburn etc. How the British Empire was
finally born. With a great rally at the end, of all the
Colonies and Dominions, with their baskets of produce
on their heads in costume when possible, such as the Maoris,
North American Indians, Africans etc, joining in a final
climax. A tableau reaching right up to the organ at the
Albert Hall, to the Mass singing of God Save the King.
