and he is returning on Monday

Dear Mr Laszlo.

A friend of mine
has found an old paint
box of 1826. It
contains, among other
things, about $7\frac{1}{2}$ ounces
(I think) of real
ultramarine in powder
form. This has been
tested & found to be
finer in quality than
anything now on the
market.

My friend wants
to sell it & I wondered

if it would be of any
interest to you.

I believe the
ultramarine is worth
about £7 an ounce.
