P.A. DeLazlo. Esq.

My Dear President - Perhaps, I ought not to trouble you at this juncture, but you have so endeared yourself to the whole of the R.B.A. members, that I, as one of the seniors who remember you vividly ^{since} when I was associated with Sir Alfred East on the Council, cannot refrain from saying how deeply moved, I was to see your dear Son had suffered such a tragic loss & your family Circle had received such a prostrating blow. Your invariable consideration for everybody with whom you are in contact is a sure index that you must be suffering greatly at this crisis & I venture to offer you my deepest sympathy. It is gratifying to note in the newspapers that your son is progressing favourably & I trust he will soon be well & happily restored to you.

Sincerely yours

W. Wood

P.S. In the multitude of your correspondence at this time may I say that I should well understand if you do not find time to reply to this!!

W. Wood
