

Sutherland

24th July, 1931.

I have just received a letter from my friend De Barcozy, Secretary of State for Hungary, in which he informs me that he will be pleased to make all arrangements for you to be received by the Prime Minister, Count Bethlen, and by the Regent, and he also mentions that he hopes you will go shooting with Prince Festetics and Count Karolyi, and that the Duchess will accompany you.

My friend is leaving for Switzerland at the end of this week to join his family, and he suggests that you should not go to Budapest before the 15th or 20th of September, at which time the shooting season starts there, and nearly everyone is away until that date. His address is:-

His Excellency
Dr. Stephen De Barcozy,
Secretary of State to
The Prime Minister of Hungary,
Privat Hotel,
ST. MORITZ.

Perhaps you will be good enough to suggest to him the date of your arrival in Budapest and let him know where his reply may find you about the end of August.

I am sure you will enjoy your visit to Hungary, from where you will bring back happy recollections, as you no doubt will receive a hearty welcome there.
