My dear Uncle Philip,

I have just received a letter from dearest Condy, where she informs me that she had returned to Robinson, after her prolonged visit, the interesting details of which, I was so very pleased to hear from you some time through her writings. Many a time I thought how nice it would be to be with you all, + so to enjoy the freedom of nature with the many charms - wonders she contains. But there are times of resignation, + we bravely have to bear our share. I am so glad that we have again developed to a small colony +, since, besides Mr. Guzman <sup>very soon</sup> + ofsky <sup>now</sup> are here, Lighthouse <sup>are</sup> literally become the El Dorado of music! The sports which brought <sup>healthy</sup> new life into the camp are finished +, I was surprised to hear that you already know of my having won the 1<sup>st</sup> prize in the "Fünf-Kampf", which is a silver cigarette-box. Now I am going to work systematically with a good friend of mine who is a man of brains + a clever connoisseur etc.; but to relieve my mind of financial worry + to be able to make good use of the opportunity for studying by taking private lessons etc. I should be in need of about £10 -- a month, which I cannot receive at present from home; I really don't know if it is right of me asking Uncle Philip for such a great favour, but by doing it I have <sup>solely</sup> other future good in view. Much love to you both + to the dear boys from your devoted
