Dear Friend,

I was glad to receive
your letter of Hawley Place.

I am afraid you had a hard wind in
Brighton these last days, as I read in the papers
there were rather heavy gales in the North Sea.

I understand that you are anxiously waiting
to paint again - but better not begin to soon -
and surely the doctor won't allow you more than
one sitting a day.

I received "Après", very well printed - I
had read the notice already in the booklet
you gave me.

You surely will meet M. Bourier with
pleasure - a perfect gentleman - and a great

knowledge of painting and works of art.

We are here till the beginning of November - but I go often to Paris, where I have a lot to do in the Club, and in the Factory.

Remember me to Mrs de Longs, and believe me

Always yours,

Ann

Received an enthusiastic letter from Ann de Longs, written in Buda-Pesth - She had seen some very good pictures of you - The Paper -

My son Ami went to Italy, before having for N. York and Mexico - Saw your portrait in Florence.
