Dear Sirs,

Mr. de Laszlo's Studio

With reference to our conversation on the telephone this morning, we really must press for the cheque for £284.16. 2 in accordance with your letter of the 16th. December, and would ask you to point out to your client that he is not entitled to delay payment of the amount, by reason of the questions which he has raised in connection with the work at his house, which was the subject of a separate Contract with other builders, and has nothing whatever to do with the Contract for the Studio in respect of which the cheque is now due.

You may however convey to your client our personal assurance that subject to the cheque being received without further delay, we will put forward his points with regard to the house, and use our best endeavours to secure that his wishes are met.

Yours faithfully,

COOPER BAKE & CO.
