Lincoln's Inn, W.C.
High Street, ^{and also at}
Marlow, Bucks.

Mr. C. de Langle -

Thank you for your letter of receipt on Monday.
I shall a rough sketch of plan - they look better in
reality than they appear here, and with some sculpture of furniture
would be an attractive feature.

I have been to the Studio again this week. The steelwork is
fixed and the timber frames are fixed. I inspected the samples of
treatment of the freeze but it was too good and I am seeing another
on Monday next. They are starting the painting the ceilings and stone
on Monday. The painting is started and I saw the plaster specimens
about the arrangement of the stages of freeze, etc.

I see also the samples of picture holes on Monday -

I am going to France early Tuesday week but will call on
you on Monday week if you will ring me up between 11 and 1
with a view to arrange the time.

I am very pleased to hear that you are looking - it

is a very ticklish job and I think we have about it now.

I hope the work will be finished except for decoration before
Friday.

By the way they have covered all the way to the "subwood" and
repaired the tiles - it is finished -

Yours truly

J. Stanley White.

The only the decoration cases which are not yet ready -
