Dear Sir,

3. Fitzjohns Avenue

We have only just received the draft License allowing you to build the Studio, from the Ground Landlord's solicitors for our approval.

It is granted "subject and without prejudice to all rights that may be possessed by the Owner or Owners of any adjoining or other property in the neighbourhood to object thereto".

This is the usual form of License on the Estate, and will not interfere with you building the Studio, provided you comply with Mr. Cooper's Plan which has been approved.

We therefore propose to accept the License on your behalf unless you have any objection to our so doing.

Yours faithfully,

Charles Russell & Co.
