HARRY WALLIS.

Dear Mr. de Laszlo,

It was a disappointment to me not having been able to get over to Paris during your stay with the Duc de Guiche. The date of our journey to America was earlier than I thought. Both Mr. Wallis and I leave London tomorrow, but we shall be back again in the early days of December.

I hope that you were able to complete the portraits for M. Unzue, and I am also hoping that many of the enquiries we received at the Gallery have resulted in your being able to complete some more portraits before long. I mention this because, as I remarked to you when I last saw you, I want the exhibition to be, as well as an artistic success, a financial one.

We have so far not heard from the Queen of Rumania, but the Infanta Beatrice seems highly delighted with the reproduction, and already three have been sent to Bucarest, framed closely as in the specimen you saw. It will be quite a little job for you on your return to start signing the proofs.

I shall look forward very much to seeing you on my return.

With very kind remembrances,
Yours sincerely,

H. P. Wallis
