

11th May, 1931.

Dear Mr. Webster,

I regret the delay in acknowledging your kind letter of May 5th, but pressure of work has prevented me from attending properly to my correspondence.

I wish to thank you for your courtesy in letting me have the picture of the "Horses" for my Paris Exhibition, which has arrived at my Studio in perfect condition. My Exhibition opens on June 3rd or 4th at the Galeries Charpentier with over sixty of my works; in addition to portraits there will be about fifteen of my sketches.

The picture will be returned to you at the close of the Exhibition at the end of June.

It interested me very much what you wrote to me about your present Exhibition at your Galleries; it is really amazing how enthusiastic the city of Dundee is in regard to Art. When you see Mr. Aiken, kindly remember me to him, and with kindest regards,

I am,

Yours very truly,
