10

March 30th 1910

Dear dear Mr. Digby

I rec'd. V. letter of
12th forwarded 15th.

to Switzerland then

Wily & I got back

answer till I came

here wh. I did yesterday,

& found my beautiful

picture. I am having

it put on an easel

Mary Digby
in sincerest affection

& a proper light made
for it & I am promising
to lend it to dockett
Graham who is going
to exhibit it things &
wonder if you w^d like
it sent the Academy
like you let me know.

As you know "I think
it wonderfully clear &
much more interesting

than I am. The only people
who have seen it, admire
it hugely. Sargent found
(in the studio) the only
fault that I ever did
that it gives an im-
pression of a bigger face
than mine. As far as
this is concerned this is
the only fault I ever do
find with it pictures! but
my little expectation is
that heads sh^d be painted
smaller than life - You

have a great genius & we
for the most understanding
artist living & for the
quickest. Dr. New Haines
of N.Y. Mr. Asmus showed
me a photograph is
a marvel! The man
inspires me. I can't thank
you because you know too
well how deeply & seriously
I hate my husband & I are
to me. You are the most
generous man living. Don't
forget the picture is as much
yours as mine whenever
you want it yours
