Cher maître -

May I send you a last greet-
-ing before leaving and tell
you what joy you have given me
with this last beautiful sketch
which is a perfect treasure and
of which my people will be so
proud as it represents me in
their national dress.

As I would like you also to
keep a remembrance of our long
& happy association, I am
sending you, through my minister,
a little cigarette box with the
Arms of Romania which
may perhaps please you as it
is rather different from what
is generally seen.

Deava is "deelig" over the

picture of her beloved daughter
and I thank you warmly for the
great joy you have given her, by
holding fast on canvas, an
enchanting age which passes
away all too quickly.

I have spoken to Mr. Lupton
about sending the picture and
about arranging with you about
the printing in colour of my
portrait.

Auf Wiedersehen I hope,
and may you continue long

in health and prosperity for
the sake of art and the joy of
so many!
