I hope you are not a Seaman, that you have a nice boat

My dearest Pauli. I've just heard from Mrs Kittermaster that you are in the Sun - with a bad foot! I am sorry about this - and have you had much bother with it? Have the artificial "in-steps" had any bad effects? Has your arm heated up all right?

As you see, I am still at home! It is all arranged, that I am to leave on Monday - So think of me crossing to the Hook of Holland at Dawn on Tuesday. I hope I shall have a good passage. Dad's will meet me with Mrs London's motor, & we shall have a nice run of one hour to their country place near The Hague - he remain

there (with the London's) about 3 days,
+ then on to Vienna —

I am at present in bed, with
a very bad cough. I shall stay
here all day, so we are both in-
valides!! How is Stef? I had
no letter from either of you, so
I suppose you have both written
to Dads? Saw a letter to me
here now on receipt of this
I forward you photos from Laib.
The plates I shall keep — 4 of the
photos were given to M^r Orpen, who
lunched here with Dicky ~~last~~ last
week — Auntie Guäffe gave them with
my permission (we thought you w^d not
mind) as M^r Orpen wanted to
send them to his wife who is
abroad — We thought them ex
cellent photos — I really don't
think Dads could have any fault
to find in these! Love to you
both dear boys from Mum.

It was in a
conference
to talk to?
