24 MAY 20

Paul de Laizlo
3 Barley Row
Rugby

My dearest Pauli. So glad to hear
from you this morning. The first letter
I've had since you are ill! I am
writing to Mrs. Hillmaster today, to
ask her to give you milk to drink -
two tumbers full a day - how much
you drink it as it effects your blood =
Also I shall send a bottle of the
medecine Dr. Hill recommended, & that
you took at The Willows - This take

also after the meals - you remember how
much you took at the Willows, don't you?
Then remember to masticate y^r food well.
Yes, I am still here - I expect to leave
tomorrow for Holland. As it looks
fine & is warm, I expect I'll have
a good crossing on Wednesday morning -
I ought to have left today, but a
business matter has caused me to delay
going till tomorrow. I am delighted

to hear that you & Stef are to play
the Bach. Do try to practice it
well together, before the performance.

My Darling Pauli - I am so glad
you are nearly well again -
Tell me about the "mistep" - do
these things help you, do you lose
your breath running as you
used to?

My address will be:
Voor Luiden. The Hague, Holland.

We shall likely be there till
Saturday the 29th.

Much love & to hear Stef,
to whom I shall write tomorrow,

Mum
