Step

My dearest Paul. I wrote to Step
yesterday + tonight before going to bed,
I must have a talk with you -
I felt indeed a sad man parting from
my dear Rugby boys!

I have sent uncle money. He likes it.

So glad to hear you have got
your remove into the Science
side, it seems to me you will be
taking the school Cat: exam younger
than Step did?

Also v. pleased to hear V. music
master was content with you -
When you have had some practices
of the duets, get Step to play them
with you. Don't forget, that I would
like you both to play the Bach
middle movement for a house

competition -

It is awful the coal strike continuing

+ v. Cold fun for you all! No
Super warm baths - + long baths -
as at 3 Fitz Johns'!!

+ or 2 single women's.

Do you know my latest plan. I
am not going to Bagnols now,
I have postponed it till autumn,
as there is too much to do here -
I am glad, because besides other
things, I can be in Rugby on
speech day - So engage a room
for 2 people at once - in the
nice house Aunt May was in -
Your little tailor has sent in the
bill for v. trousers, which I hope
are beautiful, + hope your coat
also has been well altered -

Today M^{lle} went to the Caledonian
Market. She says it was such a
low looking place, + a man was nearly
drowned out of 2/-! She bought
choc: for me + you - 2 lbs: will
be sent to you both tomorrow, so
be on the look-out -

Daddy has so much to do, that in his last letter, he said nothing about going to Sth America - I knew he need have no anxiety about getting work - He is still in Washington. Continue writing to the Corcoran Gallery of Art - But put on envelope "please forward"

John is so happy with his bicycle - which however is too big for him - but he manages to stick on, + flies about the garden!
