3, FITZ JOHN'S AVENUE, N.W. 3.

Henry comes home on the 11th & will leave about the 25th June. His niece & suit - 10.30. P.M. - after the hour.

My Pauly boy - Your nice
long letter so glad to get on my
return from Cambridge - I spent
last week-end there with Henry & had
a nice time. Henry was v. pleased,
because he had received a wire from
Daddy giving his consent to Henry to
go with Professor Lewis to Switzerland
the end of July. Before joining the Prof.
Henry will go to Heidelberg for a few
weeks to stay in a family & do work
in the private Laboratory of a friend
of Prof. Lewis - So you can imagine
that our Henry is highly delighted.
He took me & some of his friends out in
a punt, & we paid visits together, & talked
& ate together at the Bull Hotel.
About my visit to you - I'll come
down on the 16th & do as you suggest, give

out of the fence -
to Hobbles + after lunch I think
we might walk across to that nice
Farm + have tea? What do you both
think? Am disappointed having no
letter from Stey this week - Will
you give him the enclosed, which I
think will interest him -

I enclose you cheque for 15/-
Mam: has already sent you the poet-
house Sonatas - Yes indeed you must
have been dead tired after the long field
day last Friday: So glad your feet are
keeping all right. Pat + John went to
Manglebone Swimming Bath this after-
noon. They enjoy it so much - it's been
v. warm today; now they are both in bed
+ I'm sure will sleep well after the bath.
Daddy nitio cheerily - he was so pleased to
get your letter + the photos - he says he
would like to be here watching the studio
building - The red roof is getting on quite
quickly the tiles are large so the
roof gets covered quickly - The whole
of the potting shed is being filled in,
+ today I saw plans for the laying

Q. Not seems to happen very well -

The heat of the day. I wish I could have a cosy
talk with you, my dear red man, before going
to bed - I am trying very hard
to get things finished before I leave on the
20th for France. I get up at 7 in the
mornings, & can get through a little extra
in this way - John (who has his run of
Daddy's bed for a fortnight now) is the early
bird & wakes me up with his chirping -
we have decided that the Ratman shall
not be so called any more! as he is at
times put into a queer position by John
calling aloud (in street or station) "Ratman!"

3, PALACE GATE, W. 8.

What must people think! + as our Pat holds
by being esteemed by the rest of the world who
behold him, his dignity is decidedly injured
as you will admit? Do you not?!

It is nice you doing photos for one of the
masters, which is he? How is Stef?
Do you speak with him often?

I'm glad you are so sure of your report,
so we are all working, working, like the
dear Father of the family - who has set
us such a good example -
How good night - I send you better
kisses + blessings - V. Mum.
