My dearest Pauli -

You are the "best lecture prize" man! Hurrah! & you never told me! Daddy sent me your letter, & with much pride & rejoicing I read the good news - So you too will, like Stef, come home with a 'feather' in your Cap for lecturing - What is the prize?

How did the School debate go off? I expect you got thro' your "arguments" all right? a v. interesting subject. I'm glad you took the side against. I can't believe that the killing of animals for sport was ever intended.

On Thursday you will be home,

How you  
are keeping this cold?  
Have weather?

I sent from the Wilsons. It was a lovely & exciting  
thing with much love from me  
much.

Love & think of. You will find  
Aunt Amy & Lu here. Henry is here,  
& is busy with his exam, teeth, &  
getting his & Science objects he brought  
back from Germany.

This afternoon Pat is invited to go to  
see the boat race with an American lady  
& her daughter. It is hardly cold - and  
there was snow a sleep on the ground this  
morning. I get up for 8 o'clock break-  
fast those times - it saves such a  
lot of time. I have not forgotten  
about the pictures for your room -  
& this coming week hope to get one  
two framed for you.

Daddy he expects on the 10<sup>th</sup>  
Miss Featherstone is settling in well, she  
is v. nice & a great help.  
To sport, we must play golf & you can play  
tennis on the Courts when. You will love  
the car, hope you both received the card
