My dearest Pauli. Can it be
10 days since you both left! It's
hard to believe, the time rushes on so.
I loved the boys & all our little
incidents together, only I was
disappointed he could not really
enjoy playing the trios together.
Daddy writes that he does not
like stop taking no music
lessons - he I hope will keep
going himself this term & do you
inspire him to play with you.
I hear Con has written to you & said
you about the police call!! I'm
glad the thief has been found - the
trap they laid for him, was an
advertisement - he came & was
caught!

Now the police said they w^d try to get
 back the camera + give it to you.
 I'm not going to Paris now,
 as Daddy will have a small exhibition
 there in June, when I'll go over with
 him to see it. I enclose the name
 of the buyer + seller, (thief) — I forget
 how many months imprisonment he is
 getting.
 I spent a v. nice week-end with Heusy.
 He, with Norah + a student friend painted
 up the river + had tea in a pretty
 orchard. Next day we gave a lunch party
 + paid visits together. Soon the laws will
 be growing so big, I'll have 3 at the
 universities! The Aunts have
 been here all this week, shopping every
 day. He was at "Quality Street" last
 night, Bid + Pat also of the party. We
 all enjoyed it so much. The Dr. says Pat
 must not be expected to do too much,
 he is growing too fast. I had him in to
 give him a special overhauling —
 so it's quite likely Pat won't go to
 Buffy till 1923 Lent Term.
 I hope you got the machinist's
 the photos? I've just opened mine, they
 look v. nice. I like to think of it having

No you
 of course,
 but you must get some more pictures.
